

## Acquiring Stata

Stata is available for purchase at reduced rates (GradPlan pricing) ONLY for those affiliated with the University of Washington.

The prices represent a substantial discount off the already-discounted academic price of Stata. The software offered through the Stata GradPlan is NOT student software; that is, it is in no way limited in terms of features. Software purchased through Stata's GradPlan does NOT have an expiration date (UNLESS you buy the 1-year license available to students only), but is a perpetual license for that software. People purchasing through Stata's GradPlan may elect to upgrade their software when a new release is available. See also <http://www.stata.com/order/new/edu/gradplans/gp-direct.html>

Prices are as follows:

Small Stata software and Getting Started manual (students only, 1-year license**)	\$ 45.00
Intercooled Stata software and Getting Started manual (students only, 1-year license**)	\$ 89.00
Intercooled Stata software and Getting Started manual (perpetual license)	\$145.00
Stata/SE and Getting Started manual (perpetual license)	\$295.00
User's Guide and Basic Reference (3-volumes reference + UG)	\$165.00

\* Stata 9.0 software is available under the GradPlan for Windows XP/ 2000/ 98/ ME/ NT, Power Macintosh (Mac OS X 10.1), and Linux. Linux is not for Small Stata software.

\*\* Purchasers of a 1-year license have 30 days to upgrade to a perpetual license and only pay the difference in cost between the two licenses.

If you would like to see the table of contents for the manuals, visit Stata's web site at <http://www.stata.com/bookstore/documentation.html> or <http://www.stata-press.com/manuals/>.

Stata comes in 3 flavors: Small (limited datasets, for students), Intercooled (standard version, data size limits not very restrictive), SE (large datasets). See also <http://www.stata.com/products/windows.html>.
